

Engagement Plan

Overview

City Building (Contracts) LLP (CBC) is a wholly owned Arm's Length External Organisation (ALEO) of Glasgow City Council (GCC).

GCC's Annual Communications Plan provides a strategy which CBC regards as an appropriate framework within which to ensure a co-created approach to engagement.

This plan reflects our commitment to involving everyone who looks for or benefits from the services of CBC in the shaping of our future direction and our services. We have based our plan on our many years of experience of what works well in negotiation, consultation, discussion, and welcoming feedback from the highly diverse groups of customers, clients, partners, employees, and other stakeholders, including independent professional assessment bodies, with whom we engage.

We are confident that the strategy builds on our strengths and reflects new approaches that will reinforce our commitment to putting customers at the heart of our organisation.

Our Engagement Plan aims to put our customers first and support the delivery of responsive services that meet people's needs and demonstrates we have listened and understood their demands and expectations.

To achieve our aims, we will continue to develop and improve our existing methods for empowerment, engagement, consultation, and feedback through agreed structures at all levels of our organisation.

Our current engagement activities are recorded in the plan, together with what we intend to do throughout 2021-22 to make engagement better. All actions are supported by our senior managers, trade unions and employees and contribute to our desired outcomes. This illustrates to our customers, employees, and partners what we are trying to achieve in the on-going improvement in the quality, performance, and impact of the services we provide and how they will know when we get there.

Many actions will form part of team plans for employees across our services. Team plans will be noted by our senior managers to allow the success of the plans to be monitored as part of our performance management measures.

The Benefits of Engagement

We believe that our plan has benefits that will enable us to:

- Better plan our services to give customers what they want and have a right to expect.
- Prioritise our services to make best use of limited resources.
- Agree performance objectives and standards relevant to customer needs.
- Foster partnerships with customers through better understanding of their issues and the opportunities they present.
- Alert us to problems so we can put things right before they escalate.
- Demonstrate our commitment to a fair, open and accountable service delivery.

The Outcomes of Engagement

We expect effective engagement to raise the already high overall satisfaction with our service.

We will publish information from time to time about what engagement has taught us and what we have done to improve our services based on the feedback received from customers.

The Methods of Engagement

We summarise the key mechanisms and partnerships, together with those with whom we engage in pages 3 – 8.

Review

This plan and its outcomes will be reviewed annually as part of our performance management framework. In doing this, we will seek feedback from those involved in the various activities about their effectiveness. We will also carry out an annual analysis of those involved and compare this with the profile of our customer groups to seek to ensure a balanced approach.
